Product Description

Product description

Byd's 2023 Han EV Champion Edition offers several options, including 506km, 605km, 610km and 715km. Taking the 610KM all-wheel-drive flagship model of the 2023 Champion edition as an example, the combined power of the front and rear dual motors is 380kW (517Ps), the peak torque is 700N m, and the acceleration time from 0 to 100 km is 3.9 seconds. The battery capacity is 85.4kWh, and the CLTC has a pure battery range of 610km. If you're not too concerned about acceleration performance, the 605km and 715km versions are perfect for commuting. Power is abundant and the price is relatively cheap.

Product attribute

Place of Origin	China Byd
Product name	BYD Han
Energy type	Pure Electric/100% Electric Car
Market time	2023.03
CLTC pure battery range(km)	610
Fast charge time	0.5 Hour
Fast charge percentage	80
Maximum power(kw)	380
maximum torque(N·m)	700
Length * width * height	4995*1910*1495
Body structure	4-door, 5-seater sedan
Max Speed	185km/h
Total weight	2250kg
Maximum load mass	2625kg
