Packing and Shipping:

Packaging and Shipping for Geely Smart Car

Geely Smart Car is a unique, innovative and stylish car that is designed for the modern lifestyle. To ensure that the car is delivered safely to its destination, we use the following packaging and shipping methods.

Packaging

The car is packaged in a corrugated box, lined with foam and other protective materials. The box is designed to protect the car from any impact during shipping. The car is also wrapped in plastic to protect it from dust and moisture.

Shipping

The car is shipped using a reliable and secure shipping service. We use tracked and traceable shipping methods that allow us to monitor the car's progress during transit. We also use temperature-controlled shipping methods to ensure that the car is not exposed to extreme temperatures during transit.
