Packing and Shipping:

Packaging and Shipping for Petrol MPV Cars

Petrol MPV Cars should be packaged securely in order to protect them during shipping. All items should be placed in double-walled corrugated boxes, with bubble wrap and packing peanuts used to secure them.

The box size should be appropriate for the size of the Petrol MPV Car. Heavy items should be placed in the bottom of the box, with lighter items on top. The box should be sealed securely with packing tape. The address should be clearly marked with the recipient's name and address.

When shipping Petrol MPV Cars, it is important to use a reliable courier service. The shipping cost should be taken into account when pricing the product. Tracking information should be provided to the customer to ensure that the item is delivered safely and on time.
